

Health Care Assistant Introduction to Palliative Care & End of Life Care Training

Outcomes

At the end of the session participants will be able to:

- To describe what is palliative care and what is end of life care
- To describe your role as HCA providing palliative care or end of life care using a case study approach.
- Identify with barriers effective communication and skills to apply to difficult questions.
- Identify with recognising dying and caring for the dying patient
- Describe HCA key role and responsibilities in care after death

Audience

Suitable for non-clinical staff in unqualified roles to raise awareness and build on knowledge and skills for caring for patients with palliative care needs and end of life care needs.
