

# Qualified Nursing Staff Introduction to Palliative Care & End of Life Care Training

## Outcomes

At the end of the session participants will be able to:

- Describe what is palliative care and what is end of life care.
- Discuss identification of patients with palliative care and end of life care needs; and recognising dying.
- Illustrate compassion when describing a holistic assessment and personalised care planning.
- Clarify principles of symptom management and effective communication skills.

## Audience

Suitable for clinical staff in qualified roles to support the development of knowledge and skill when caring for patients with palliative care and end of life care needs.
