

Support St. Benedict's Hospice with a **unique and simple** fundraising initiative

Your redundant IT equipment
can help change lives.

**St. Benedict's Hospice
& Centre for Specialist
Palliative Care**

IT donate

Do you own or work
for a company with an
IT Department?

Do you know someone who
owns or works for a company
with an IT Department?

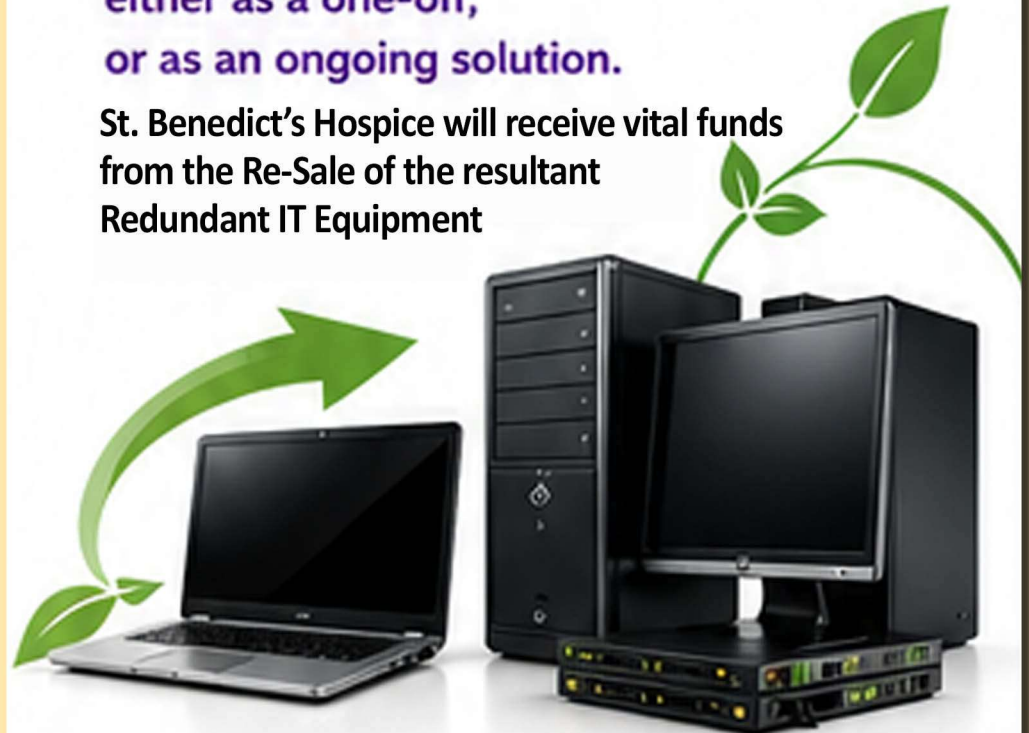

90% of IT Departments have
a current solution for disposing
of their redundant IT equipment.

By simply asking them to

SWITCH TO ITDONATE

either as a one-off,
or as an ongoing solution.

St. Benedict's Hospice will receive vital funds
from the Re-Sale of the resultant
Redundant IT Equipment

Why ITdonate?

-  Free Service
-  Clear and transparent disposal/processing
-  Secure data disposal + certification
-  Old IT equipment is reused as much as possible (circular!).
-  Zero to landfill
-  GDPR compliant, greatly reduced risk of data leaks
-  ISO 9001, 14001, and 27001 certified
-  Environment Agency approved

What's the next step?

Send a copy of this PDF brochure to your contacts who have access to IT departments.

Or contact us via email, telephone or through the website with their details.

ITDonate will deal direct with your IT Donors and provide a first class IT Recycling and Data Destruction Service.

No cost. No hassle. Just impact.

How ITdonate Works?

1

Contact is made via email, telephone, website or click the QR Code below.

2

We then discuss directly with them their Security needs, types of equipment available, etc. and arrange a collection date and time.

3

All IT equipment is logged into our secure facility and assessed. All asset tags and identifying labels removed. All data bearing devices will be securely sanitised.

4

Data Destruction, Asset Management and WEEE Compliance certificates are supplied.

5

Once the equipment is sold ITdonate will make payment to the charity direct. The IT donor will also receive confirmation of receipt of payment from the charity.

The company behind ITdonate

The project is run by IT Resource Group Ltd, one of the leading ICT Recycling and Data Destruction Specialists in the UK.

Working for Local Authorities, NHS Trusts, Banking Institutions, Large Corporates and SME businesses.

Our Certifications include:

- ✓ Environment Agency: T11, S2 and Waste Carrier Licences
- ✓ ISO 9001 Quality Management System
- ✓ ISO 14001 Environmental Management Systems
- ✓ ISO 27001 Information Security Management Systems
- ✓ ICO: Registered Data Controller

It's for Charity but Data Security is still of the utmost importance!

The potential of a sensitive data escape represents a substantial risk to your business and your reputation.

Our ITAD service is designed to protect your data and mitigate any risks in the IT asset recovery process.

ITRG provides a single-source solution for data destruction for the full range of corporate IT and enterprise technology. Our processes adhere to the highest international data protection standards, including **NIST 800-88** and **IEEE 2883-2022**, ensuring thorough data erasure for maximum security.
